Index to Volume 44 (1973)

This index is composed of the following three subindexes: (1) bibliographical, (2) author, and (3) topic. Entries in the bibliographic index are numbered and have been alphabetized by the last name of the author or, in the case of multiple authors, by the last name of the senior author. Reference information includes the name(s) of the author(s), the title of the article, the month of publication, and the pages on which it is found.

The author index cites the name of each author, followed by the month of publication and page(s) on which the article(s) begin.

In the topic index, each article is listed under those important topics about which the article provides information and/or data. The number or numbers included in the listing refer to the initial page of the article in which the topic is discussed.

I. *Bibliographical Index*

1. BALAKRISHNAN, A., and SIMARD, T. A slide rule to correlate electromyographic and electrogoniometric data. Oct. 375.
2. BARNETT, MARY L.; ROSS, DIANE; SCHMIDT, RICHARD A.; and TODD, BETTE. Motor skills learning and the specificity of training principle. Dec. 440.
3. BARNEY, ROBERT KNIGHT. A historical reinterpretation of the forces underlying the first state legislation for physical education in the public schools of the U.S. Oct. 346.
4. BARNI, DAVID; MICHAEL, ERNEST; and FOOSE, BARRY. Effects of cold showers on the heart rate and oxygen uptake of trained runners. Mar. 12.
5. BIRD, ANNE MARIE. Effects of social facilitation upon females' performance of two psychomotor tasks. Oct. 322.
6. BOILEAU, RICHARD A.; MASSEY, BENJAMIN H.; and MISNER, JAMES E. Body composition changes in adult men during selected weight training and jogging programs. May 158.
7. BYRD, RONALD, and GENTRY, ROY B., Jr. A method of determining CO_2 percentages using a paramagnetic oxygen analyzer. May 237.
8. CARTER, J. E. LINDSAY; STEPNICKA, JIRI; and CLARYS, JAN P. Somatotypes of male physical education majors in four countries. Oct. 361.
9. CHRISTINA, ROBERT W. Influence of enforced motor and sensory sets on reaction latency and movement speed. Dec. 483.
10. CONSIDINE, WILLIAM J., and SULLIVAN, WILLIAM J. Relationship of selected tests of leg strength and leg power on college men. Dec. 404.
11. COOK, BILL, and BRYNTESON, PAUL. Effect of a season of collegiate swimming competition and training on selected responses. Mar. 63.
12. DAVIS, BILLY E., and BERGER, RICHARD A. Relative academic achievement of varsity athletes. Mar. 59.
13. FREISCHLAG, JERRY. A comparison of the effects of sex, competition, and ability on a perceptual motor task. May 178.
14. FRINGER, MARGARET N. Relationship among selected cardiorespiratory variables in young adult females. Dec. 448.
15. GORDON, L. D.; THOMPSON, MARGARET M.; and ALSPAUGH, J. W. The relative importance of various physical education objectives for grades K-2. May 192.

Index to Volume 44 (1973)

36. ROSS, WILLIAM D., and WILSON, BARRY D. A somatotype dispersion index. Oct. 372.
37. ROTHSTEIN, ANNE L. Effect of temporal expectancy of the position of a selected foreperiod within a range. May 132.
38. SAGE, GEORGE H. Occupational socialization and value orientation of athletic coaches. Oct. 269.
39. SAGE, GEORGE H., and BENNETT, BONNIE. The effects of induced arousal on learning and performance of a pursuit motor skill. May 140.
40. SCHEER, JOHN K. Effect of placement in the order of competition on scores of Nebraska high school students. Mar. 79.

41. SCHMIDT, RICHARD J., and ROYER, FORD M. Telemetered heart rates recorded during karate katas: A case study. Dec. 501.
42. SCHREIBER, MARY L. Anaerobic capacity as a function of somatotype and participation in varsity athletics. May 197.
43. SINGER, ROBERT N., and LLEWELLYN, JACK H. Effects of experimenter's gender on subject's performance. May 185.
44. SINGER, ROBERT N.; LLEWELLYN, JACK; and DARDEN, ELLINGTON. Placebo and competitive placebo effects on motor skill. Mar. 51.
45. SINNING, WAYNE E. Body composition, cardiorespiratory function, and rule changes in women's basketball. Oct. 313.
46. SMOLL, FRANK L. A rhythmic ability analysis system. May 232.
47. SNYDER, ELDON E., and SPREITZER, ELMER A. Family influence and involvement in sports. Oct. 249.
48. STEWART, KERRY; GUTIN, BERNARD; and LEWIS, STEVEN. Prior exercise and circulorespiratory endurance. May 169.
49. SVOBODA, MILAN. Influence of dynamic muscular fatigue and recovery on static strength. Dec. 389.
50. TALAG, TRINIDAD S. Residual muscular soreness as influenced by concentric, eccentric, and static contractions. Dec. 458.
51. TOYOSHIMA, SHINTARO, and MIYASHITA, MITSUMASA. Force-velocity relation in throwing. Mar. 86.
52. VORRO, JOSEPH R. Stroboscopic study of motion changes that accompany modifications and improvements in a throwing performance. May 216.
53. WATT, EDWARD W.; BUSKIRK, E. R.; and PLOTNICKI, B. A. A comparison of single vs. multiple daily training regimens: Some physiological considerations. Mar. 119.
54. WHITLEY, JIM D. Effects of increasing inertial resistance on performance and learning of a training task. Mar. 1.
55. WILLIAMS, L. R. T. Psychological refractoriness of two serial motor responses. Mar. 24.
56. WILLIAMS, L. R. T., and HEARFIELD, V. Heritability of a gross motor balance task. Mar. 109.
57. WILLIAMS, MELVIN H., and THOMPSON, JOHN. Effect of varient dosages of amphetamine upon endurance. Dec. 417.
58. WITTEN, CHET. Construction of a submaximal cardiovascular step test for college females. Mar. 46.
59. ZOLLINGER, RANDA L. Mechanical analysis of windmill fast pitch in women's softball. Oct. 290.

II. *Author Index*

After the name of each author is the month of publication and the page(s) on which the article(s) begin.

Alspaugh, J. W., May 192.

Balakrishnan, A., Oct. 375.
Barnett, Mary L., Dec. 440.
Barney, Robert Knight, Oct. 346.
Barni, David, Mar. 12.
Bennett, Bonnie, May 140.
Berger, Richard A., Mar. 59.
Bird, Anne Marie, Oct. 322.
Boileau, Richard A., May 158.
Brynteson, Paul, Mar. 63.
Buskirk, E. R., Mar. 119.
Byrd, Ronald, May 237.

Carrow, Rexford E., Dec. 470.
Carter, J. E. Lindsay, Oct. 361.
Christina, Robert W., Dec. 483.
Clarys, Jan P., Oct. 361.
Considine, William J., Dec. 404.
Cook, Bill, Mar. 63.
Cureton, Thomas K., Oct. 278.
Czula, Roman, Oct. 301.

Darden, Ellington, Mar. 51.
Davis, Billy E., Mar. 59.

Foose, Barry, Mar. 12.
Freischlag, Jerry, May 178.
Fringer, Margaret N., Dec. 448.

Gentry, Roy B., Jr., May 237.
Gordon, L. D., May 192.
Gruber, Joseph J., Dec. 423.
Gutin, Bernard, May 169, Oct. 256.

Henry, Franklin M., Mar. 118.
Hearfield, V., Mar. 109.
Heusner, William W., Dec. 470.
Hetherington, Ross, Mar. 113.
Higgs, Susanne L., May 125.
Hinson, Marilyn, Mar. 71.
Holland, John C., May 227.

Katch, Frank I., May 206, Oct. 301, Dec. 498.
Kirkendall, Don R., Dec. 423.

Lewis, Steven, May 169.
Llewellyn, Jack H., May 185.

Magel, John R., Dec. 498.
Massey, Benjamin H., May 158.
McArdle, William D., May 206, Oct. 301, Dec. 498.
McCraw, Lynn W., Mar. 96.
Michael, Ernest, Mar. 12.
Misner, James E., May 158.
Miyashita, Mitsumasa, Mar. 86.
Molnar, Sandor, Oct. 278.

Noble, Larry, Mar. 96.

Park, Roberta J., Mar. 34, Oct. 331.
Pechar, Gary S., May 206, Oct. 301, Dec. 498.
Pickens, Leon, Dec. 434.
Plotnicki, B. A., Mar. 119.
Puretz, Donald H., Dec. 397.

Ramey, M. R., Dec. 488.
Reed, Alfred T., Dec. 470.
Rivenes, Richard S., Oct. 383.
Rohrbacher, Richard, May 150.
Ross, Diane, Dec. 440.
Ross, William D., Oct. 372.
Rosentswieg, Joel, Mar. 71.
Rothstein, Anne L., May 132.
Royer, Ford M., Dec. 501.

Sage, George H., May 140, Oct. 269.
Scheer, John K., Mar. 79.
Schmidt, Richard A., Dec. 440.
Schmidt, Richard J., Dec. 501.
Schreiber, Mary L., May 197.
Simard, T., Oct. 375.
Singer, Robert N., Mar. 51, May 185.
Sinning, Wayne E., Oct. 313.
Smoll, Frank L., May 232.
Stepnicka, Jiri, Oct. 361.
Snyder, Eldon E., Oct. 249.
Spretizer, Elmer A., Oct. 249.
Stewart, Kerry, May 169.
Sullivan, William J., Dec. 404.
Svoboda, Milan, Dec. 389.

Talag, Trinidad S., Dec. 458.
Todd, Bette, Dec. 440.
Thompson, John, Dec. 417.
Thompson, Margaret M., May 192.
Toyoshima, Shintaro, Mar. 86.

Van Huss, Wayne D., Dec. 470.
Vorro, Joseph R., May 216.

Watt, Edward W., Mar. 119.
Weltman, Arthur L., May 206.
Whitley, Jim D., Mar. 1.
Wiley, Jack F., Oct. 278.
Williams, L. R. T., Mar. 24, Mar. 109.
Williams, Melvin H., Dec. 417.
Wilson, Barry D., Oct. 372.
Witten, Chet, Mar. 46.

Zollinger, Randa L., Oct. 290.

Each topic is followed by the initial page number(s) of the article(s) in which the topic is discussed.

A

ability, effects on a perceptual motor task; 178
albino mice, chronic effects of long term cigarette smoke inhalation upon; 397
amphetamine, varient dosages of, effects on endurance; 417
anaerobic capacity,
as a function of somatotype; 197
as a function of participation in varsity athletics; 197
angular momentum, significance in long jumping; 488

B

basketball, rules changes in; 313
body composition; 301
as related to rule changes in women's basketball: 313
effects of selected weight training and jogging programs on; 158

C

cadmium sulfide, use in measuring velocity; 86
California, first state legislation for physical education in U.S. public schools; 346
camp program for obese boys; 150
cardiac time components,
use in prediction of endurance performance; 278
use in prediction of oxygen consumption; 278
cardiorespiratory function and rule changes in women's basketball; 313
cardiorespiratory variables in young adult females, relationship among; 448
cardiovascular step test, submaximal; 46
cigarette smoke inhalation, chronic effects upon development of oxygen debt capacity in albino mice; 397
circulorespiratory endurance,
effects of prior exercise on; 169
CO_2 percentages, determined by the paramagnetic oxygen analyzer method; 237
cold showers, effects on heart rate and oxygen uptake of trained runners; 12
competition,
effects on a perceptual motor task; 178
order of, effects on scores; 79
computer-based storage and retrieval information systems for health, physical education, and recreation research; 227
concentric, eccentric, and static contractions, influence on residual muscular soreness; 458
criterion score, within-subject variation and measurement error; 113

D

De Genlis, la comtesse, Stephanie-Felicite du Crest; 34
Dekan Performance Analyzer; 54
disadvantaged high school pupils, effectiveness of motor, intellectual, and personality domains in predicting group status of; 423
Du Crest, Stephaine-Felicite; female proponent of physical education; 34

E

electrogoniometric data, slide rule for correlation of; 375
electromyographic comparison of isokinetic, isotonic, and isometric contractions; 71
electromyographic data, slide rule for correlation of; 375
endurance, effects of varient dosages of amphetamine on; 417
endurance performance, predicted from cardiac time components; 278
endurance running performance; 301
exercise, effects on circulorespiratory endurance; 169
exercise-induced activation, effects on human performance; 256

F

family influence on involvement in sports; 249

females,
cardiovascular step test for; 46
cardiorespiratory variables in; 448
fencers in 28th annual NCAA fencing championships, characteristics of; 434
fencing; 434
forced exercise, prepubertal,
effects on postpubertal organ and body weights of female rats; 470
force-velocity relation in throwing; 86
foreperiod within a range,
effect on temporal expectancy of; 132

G

gross motor balance task,
heritability of; 109
GPA, athletes and nonathletes; 59

H

heart rate,
effects of cold showers on; 12
recorded during karate katas; 501
Henry comments on the Hetherington paper; 118
heritability of a gross motor balance task; 109
Hetherington paper,
Henry comments on; 118
human performance, effects of exercised-induced activation on; 256

I

induced arousal, effects of on learning and performance of a pursuit motor skill; 140
inertial resistance, effects on performance and learning of a training task; 1
isometric training program,
effects on relative-load endurance and work capacity; 96
isometric, isotonic, and isokinetic contractions, muscular tensions produced by; 71
isotonic training program,
effects on relative-load endurance and work capacity; 96

J

jogging programs, effects on body composition changes in adult men; 158

K

rate katas, telemetered heart rates recorded during; 501

L

legislation for physical education in U.S. public schools; 346
leg power of college men,
selected tests of; 404
leg strength of college men,
selected tests of; 404
long jumping, significance of angular momentum in; 488

M

maximal oxygen intake,
effects of swimming competition on; 63
of active college women; 125, 301
effects of individual differences in a steady pace endurance running performance on; 206
maximal work performance of active college women; 125
measurement error and selection of a criterion score; 113
men, tests of leg strength and leg power of; 404
motion changes that accompany modifications and improvements in a throwing performance, stroboscopic study of; 216
motor, intellectual, and personality domains, effectiveness of, in predicting group status in disadvantaged high school pupils; 423
motor sets, as influenced by reaction latency and movement speed; 483
motor skill, effects of placebo on; 51
motor skills learning, as related to the specificity of training principle; 440
movement speed, influence of enforced motor and sensory sets on; 483
muscular fatigue and recovery, influence on static strength; 389
muscular soreness, as influenced by concentric, eccentric, and static contractions; 458

O

obese boys, camp program for; 150

objectives for grades K–2, physical education; 192
occupational socialization, effects of value orientation of athletic coaches on; 269
optimal conditions in motor learning; 1
oxygen consumption, predicted from cardiac time components; 278
oxygen debt capacity in albino mice, chronic effects of long term cigarette smoke inhalation on; 397
oxygen uptake, effects of cold showers on; 12

P

paramagnetic oxygen analyzer, method of determining CO_2 percentages; 237
Parot, Adele, force influencing state physical education legislation; 346
percentile norms for a valid step test in college women; 498
perceptual motor task, as influenced by sex, competition, and ability; 178
performance and learning of a training task, effects of increasing inertial resistance on; 1
performance of psychomotor tasks, effects of social facilitation on; 322
physical education in French national plans for education; 331
physical education majors, somatotypes of; 361
physical education objectives for grades K–2; 192
placebo, effects on motor skill; 51
potassium-40 counting for whole body; 159
psychological refractoriness; 24
pursuit motor skill, effects of induced arousal on learning and performance of; 140

R

rats, postpubertal organ and body weights, effects of prepubertal forced exercise on; 470
reaction latency, influence of enforced motor and sensory sets on; 483
relative-load endurance and work capacity, effects of isometric and isotonic training programs on; 96
research in health, physical education, and recreation, computer-based storage and retrieval information systems; 227
rhythmic ability analysis system; 232
rule changes in women's basketball; 313
running, effects of cold showers on; 12

S

Scholastic Aptitude Test scores, predicting GPA of athletes; 59
scores, effects of order of competition on; 79
self-concept of obese boys, as influenced by a special camp program; 150
sensory sets, as influenced by reaction latency and movement speed; 483
serial motor responses; phychological refractoriness; 24
sex, effects on a perceptual motor task; 178
sex of experimenter, effects on subject's performance; 185
slide rule to correlate electromyographic and electrogoniometric data; 375
social facilitation; 322
somatotype dispersion index; 372
somatotypes of male physical education majors; 361
specificity of training principle, as related to motor skills learning; 440
sports, family influence on involvement in; 249
stabilometer task apparatus; 383
steady pace endurance running performance, effects of maximal oxygen intake on; 206
State Trait Anxiety Inventory, A-State form of; 140
static strength, influence of dynamic muscular fatigue and recovery on; 389
stroboscopic study of motion changes in a throwing performance; 216
subject's performance, effects of experimenter's gender on; 185
Swett, John, pioneer in physical education legislation; 346
swimming competition, effects on selected responses; 63
temporal expectancy, related to position of selected foreperiod within a range; 132

T

throwing, force-velocity relation in; 86
training regimens, single vs. multiple daily, some physiological considerations; 119
Turners, influence on physical education legislation; 346

V

value orientations, effects on occupational socialization of athletic coaches; 269

W

weight loss, self-concept, and body image of obese boys, as influenced by a special camp program; 150
weight training, effects on body composition changes in adult men; 158
windmill fast pitch in women's softball, mechanical analysis of; 290
within-subject variation and selection of a criterion score; 113
women,
maximal work performance; 125
maximal oxygen intake in; 125, 301
endurance running performance in; 301
body composition in; 301
women's basketball,
body composition changes in; 313
cardiorespiratory function in; 313
rule changes in; 313
